我喜欢麻辣的食物，特别是有着独特口味的四川菜，菜肴的色香味真是让人有食欲。甜食是最让我头疼的，因为甜食总是使我胃酸。

2.Can you say something about healthy food and eating habits?

2.你能说一些健康的食品以及饮食习惯吗？

Healthy food is at the bottom of the Food Pyramid. It provides lots of nourishment but is low in fat. Fruits and vegetables, for example, are high in fibre and packed with vitamins and minerals, especially vitamins A, C, and E. They are also low in calories and virtually fat free. The best eating habits in my opinion should be: eat a variety of different foods and eat the right amount. It is all about

getting the right balance. There are no good or bad foods, but how you combine foods together each day and each week is important. All foods can be enjoyed as part of a healthy eating plan if they are eaten in reasonable amount.

健康食品是在食物金字塔的最底部。它提供很多的营养但是脂肪含量很低。比如水果和 蔬菜，富含纤维、维生素以及矿物质，特别是维生素 A、C 和 E。它们同样也是低热量的而几乎不含脂肪。在我看来，健康的饮食习惯应该是:吃很多不同种类的食物而且数量适当。尽量做到饮食平衡。并没有好的或不好的食物，重要的是看你每天和每周如何搭配食物。只要摄取适量，所有的食物都可做为健康饮食计划的一部分。

3.What is your opinion about consuming wild animals?

3.对于吃野生动物你怎么看？

I consider it a "bad habit" of putting wild animals on the dinner table, the popularity of consuming wild animals in China is mostly based in the belief that these animals are more nutritious than domestic ones, and therefore good for the health. But experts have a different view. Diseases suffered by animals and the toxic element in their bodies can easily affect the people who eat them, sometimes with fatal consequences. What's more, many wild animals are poisoned to death by poachers, and the poisons can remain in their bodies for a long time, so it is extremely hazardous to consume such animals.

我认为吃野生动物是一个“不好的嗜好”，在中国流行吃野生动物主要是由于人们认为这些动物比饲养的动物更有营养，因此对健康有益。但是专家持有不同的观点。动物身上的疾病以及身体上有毒的元素很容易影响到吃它们的人，有时会有

致命的后果。此外，很多野生动物是被偷猎者毒死的，毒素会残留在它们的身体里很长一段时间，因此吃这种野生动物是极为危险的。

4.Do people pay more attention to healthy food nowadays?

4.现代人会更关注健康食品吗？

Yes, I think so, especially after the terrible spread of SARS in 2003, People come to realize that a healthy body comes from a healthy eating habit. People used to pay more attention to the taste of food rather than the nourishment. As a result, they include a lot of high fat and high sugar food in their daily diet. Some even totally neglected the in-take of fruits and vegetables which are high in fibre and vitamins. It's not the case now. People tend to choose a variety of different foods to get vitamins, minerals, fibre, protein and energy they need for good health.

是的，我是这么认为的，特别是在 2003 年“非典”的可怕蔓延之后，人们开始意识到健康的身体来自于健康的饮食习惯。人们过去常常更关注口味而不是营养。结果是，他们每天的饮食包含大量的高脂肪、高糖的食品。有些人甚至完全忽视摄入富含纤维和维生素的水果和蔬菜。现在不是这样了。人们倾向于选择多种不同的食物来获取他们需要的对健康有益的维生素、矿物质、纤维、蛋白质以及能量。

5.Compare people's eating habits in modern times and those in the past.

5.比较一下现代和过去人们的饮食习惯。

In the past, people ate less meat, because it was extremely expensive and hard to get. And people seldom ate out since there weren't many restaurants for them to go to. Nowadays, people's living standard has been improved a great deal, and

meat has become a necessary part in people's daily diet. Fast food is especially welcomed among young people who are busy with their work or study.

过去，人们吃肉比较少，因为非常贵也很难买到。而且人们很少出去吃饭，因为没有那么多的饭店可去。现在，人们的生活水平有了很大的改善，肉类成为人们每天饮食中必要的部分。快餐特别受工作或学业繁忙的年轻人的欢迎。

6.Are people healthier than they were ten years ago?

6.现在的人们比十年前更健康吗？

I'm afraid not. It's true that people are better off but unhealthy eating habits have brought much trouble to them. Many office workers neglect their breakfast and enjoy fast food that is high in fat and calorie. This was not the case ten years ago when people lived on high fibre food, and the pace of life was so slow that there was not much stress from work or study.

恐怕不是的。人们确实是更富裕了，但是不健康的饮食习惯带给他们很多麻烦。很多办公室工作者忽视早餐而很喜欢高脂肪高热量的快餐。这不像十年前人们以高纤维食物为主，而且生活节奏很慢，并没有多少工作或学习上的压力。

7.Do you like eating out?

7.你喜欢下馆子吃饭吗？

Yes, I do. It's quite convenient, you know. You don't need to worry about cooking and washing. All you need to do is relax and order any food you love.

是的，我喜欢。你也知道的，这非常方便。你不需要发愁做饭和刷碗。你需要做的就是放松以及点任何你喜欢的食物。

8.What is your favourite restaurant? Why?

8.你最喜欢的餐厅是哪一家?为什么?

Well, I seldom eat out, but one restaurant impressed me deeply. It was several years ago when I was in Beijing. A friend of mine invited me to have dinner at the old Peking Noodle Restaurant, which faithfully carries on the old eating customs from a hundred year ago. Diners all sit around square tables which are painted dark red and the waiters (no waitresses can be found there) wear traditional costumes with white towels on the shoulders. The food they serve there is said to be genuine old Peking snacks that aren't available elsewhere.

嗯，我很少去饭馆吃饭，但是有一个餐厅给我留下很深的印象。是几年前我在北京的时候，我的一个朋友请我去老北京面馆吃饭，那里如实地继承了一百年前的老式饮食风俗。食客们都围着方桌坐成一圈，桌子被漆成深红色，男服务员(那里没有女服务员)穿着传统的装束，肩膀上还搭着白毛巾。那里的食物据说是别的地方没有的真正的老北京小吃。

9.When do people go out eating?

9.人们什么时候去饭馆吃饭？

Sometimes people go out eating just for a get together.

有时人们就是为了聚会而去饭馆吃饭。

They usually find a favourite restaurant and chat there. Or, as is growing more popular, many people go to restaurant for traditional family reunion dinners on New Year's Eve, known as nianyefan. And sometimes people go out eating simply for improving the relationship between business partners.

他们通常会找一家最喜欢的饭馆吃饭聊天，或者，越来越流行的，很多人为了除

夕夜传统的合家团圆饭而去饭馆，这就是所谓的“年夜饭”。有的时候人们去饭馆吃饭只是简单地为了增进商业伙伴之间的关系。

10. When do you usually eat out?

10. 你通常都在什么时候出去吃饭呢？

Generally speaking, I usually eat out a lot. You know, I usually feel so tired that don't feel like doing anything after studying for the whole day. So I usually run into McDonald or KFC to grab a quick bite and then drag myself home to get some sleep. But it is certainly not the thing that happens every day. As I am only a student, there is no way for me to splash money about by eating out everyday. So I would say it really depends. It depends on whether I have enough pocket money or not.

一般来说，我通常都出去吃饭。在完成一整天的学习之后，我经常都觉得筋疲力尽，什么也不想做了。因此我经常都会去麦当劳或者肯德基来顿快餐，然后拖着疲惫的身体回家睡觉。但也并不是每天都这样的。由于我现在还是个学生，这也就意味着我不可能每天都在外面吃。所以要视情况而定。这就取决于我是否有零花钱了。

11. Who would prefer to eat out more, the youngsters or the elder people?

11. 谁更喜欢去外面吃呢，年轻人还是老人呢？

Talking about this question, youngsters are definitely the demographic who are more likely to eat out. They are always popping into nice restaurants, ordering expensive food while catching up with their friends. But it would turn out to become totally another picture when it comes to the elder people. They tend to

stay at home, cooking on their own.

谈到这个问题，从统计数字来看，年轻人显然更喜欢去外面吃。他们总是出现在一些漂亮的饭店，点最贵的食物来招待他们的朋友。但是如果是老年人的话，就完全是另一番景象了。他们趋向于待在家里，自己做饭吃。

Topic 06: 时间

1.What is the importance of time?

1.你对时间的重要性有什么看法？

Well, I think time is very important .Indeed, we are all living in a world where the time is becoming more and more precious .It is very hard to imagine how someone can survive without knowing how to cherish time. And obviously, time has become the priority number one when it comes to almost everything and we are going nowhere without it! It is not too much to say time has already become one of the very few things that can't be measured in terms of money!

嗯，我认为时间是相当重要的。事实上，我们就生活在一个时间变得越来越珍贵的世界。很难想象，一个不知道如何珍惜时间的人怎么能够生存下去。显然，对于任何事情，时间已经成为首要因素;没有时间，我们什么也做不!再怎么，时间已经成为不能用金钱衡量的为数不多的东西之一了。

2.When do you think time goes fast and when do you think time goes slow?

2.你认为什么时候时间过得快，什么时候过得慢？

As the saying goes "Time always flies when you having fun!" say, when you are doing something you are crazy about, you are gonna think time goes really fast;

conversely, you are gonna think time is dragging when you are dealing with something you are sick of. For example, I am a big fan of dancing, so I think time is cruising everytime when I hang out dancing clubs dance with my buddies.

就像语所云:快乐时光易逝!当你在做你喜欢的事情的时候, 你会认为时间过得很快;相反的, 当你在做你讨厌的事情的时候, 你就会认为时间过得慢了。例如, 我是个很喜欢跳舞的人, 因此我总觉得, 当我和我的朋友一起去舞蹈俱乐部的时候, 时间就像水一样流逝过去了。

3.What is your busiest time in the whole day?

3.你一天中什么时候最忙?

That would be in the morning. You know, I only have one hour to get everything ready for work: struggling to get up by the annoying alarm clock, getting dressed with my eyes closed, grabbing a quick bite while rushing into the teeny, tiny apartment with all the guys jammed like sardines!

那应该是在早上的时候。我大概需要一个小时来为工作做准备: 在恼人的闹钟响了之后, 挣扎着起床;闭着眼睛着装;边刷牙的同时要迅速地吃早餐;小小的隔间被我们这些家伙挤得像鱼子酱一样!

4.Which time of the day do you like best?

我喜欢早上。早上是崭新的一天甚至是一个新生命的开始。一句老的格言说道“一

日之计在于晨”。充分的睡眠之后，早上总是我状态最好的时候。

5.What do you usually do at night?

5.你晚上通常都做什么？

Generally speaking, I usually stay at home, hitting the books. You know, I got a really big fish to fry now! It is taking IELTS. Hopefully I can get a high mark and go abroad pretty soon. But it really depends. As the saying goes "All work and no play makes Jack a dull boy!" So I think I deserve having some time to get relaxed. So when it comes to the weekend, I usually hang out in pubs or clubs with my buddies and paint the town red!

一般来说，我通常都待在家里啃书。我现在还有一件天大的事要完成呢！那就是参加雅思考试。真希望我可以拿个高分，然后能马上就出国。但是这也要看情况，就像俗语所云：整天工作、没有娱乐会使人变成傻子的！所以我认为我也需要一点放松的时间。因此每到周末，我通常都会和我的朋友去酒吧或者俱乐部狂欢！

6.Why do you like going to clubs at night?

6.你为什么喜欢晚上去俱乐部呢？

Well, you know, we are living in a world where the competition is getting fiercer. It is hard to imagine what it would be like without knowing how to relax. And certainly, hanging out in clubs is a good way to relax. So this is why I am a big fan of it.

嗯，大家都知道，我们生活在一个竞争越来越激烈的世界，几乎很难想象一个人如果不懂得如何放松的话，他会变成什么样。显然，去俱乐部是一种放松的合适方式，因此这就是我作为一个俱乐部迷的原因。

1. 你最喜欢哪个季节，为什么？

I think that would be spring. You know the smashing spring scenery: the high, light blue sky with the fluffy clouds dancing randomly underneath, the breeze is gently kissing your face, the trees are green and amazing fragrance in the air.

我觉得是春季。你知道那种极好的春天的景色：高高的、浅蓝色的天空，下面飘着自由自在的蓬松的白云，微风在亲吻着你的脸庞，诱人的绿色贪婪地爬满了所有的树枝，迷人的香气弥漫在空气之中。

2. What is your favorite season? And what do you do in that season?

2. 你最喜欢哪个季节？你在那个季节做什么？

My favorite season is spring because after a long and cold winter, spring always gives people a kind of vigor. I love spring outing with my friends or with my family to enjoy the pulse of spring. Any touch of green will excite us, and the fresh smell of the ground is always so inspiring. We laugh and sing and have picnics together.

And the wind blew fiercely, so you were unable to open your eyes. All the vehicles were moving like snails. It took me twice as much time as usual to go home that day?

那应该是去年 5 月的一天，我赶上了那一年最严重的沙尘暴。我下班回家的时候，所有的东西都是黄色的，你甚至看不到离你几步远的人。风猛烈地刮着，以至于你都睁不开眼睛。所有的车辆都像蜗牛一样缓慢移动着。我那天回家用了平时两倍的时间。

多数时候，只是去那里散步，呼吸最新鲜的空气，欣赏最漂亮的花儿，听听可爱的鸟儿动人的歌声。你知道，我最喜欢深秋时节的公园。因为所有的叶子都会被涂上各种令人惊异的颜色，如深红、酒红、鲜红、淡红的发黄或者是热情洋溢的黄色……就像个童话世界一样。

Topic 09: 手机

1. 哪类人使用移动电话最多？

That would be those guys who are running their own business or those people who are always crazy about talking on the phone forever or maybe those people who have no access to a landline.

2. Who uses the mobile phone most in your family? Why?

That would definitely be my mother. She is always talking on the phone anytime anywhere you see her. Her mobile is always like a hotline, you can always hear something like "The number you dialed is busy now, please redial later!" every

They are really cool. You know, mobile phone sounded like something that was too alien to guys several decades ago, but now they become so common that people can not imagine how to live without them! Especially those people who think landlines are out of style, mobile phones are no doubt a big bonus for them. There are millions of amazing ring tones, eye-dazzling wallpapers and various functions like SMS, MP3, radio and video... whatever function you could possibly imagine will make the people love it to death!

这真是个很棒的东西。手机，在几十年前听起来像 外星人一样，而现在已经变得如此普通，以至于如果没有它，人们都不知道该怎么生活！尤其是对于那些认为固定电话已经过时的人来说，移动电话对他们来说无疑是最令人高兴的事情。从无数美妙的铃声、吸引人的壁纸，到各种各样的类似短信、MP3、收音机和视频等功能——任何你可以想到的功能，这都会使你对手机爱不释手！

4. Can you think anything bad about using a mobile phone?

4. 使用手机有什么不利的方面啊？

Well, the first thing jumps into my mind is the radiation. I was told that there is kind of radiation that will be given off from mobile phone when you keep them

open, and it does no good to people's health. Another bad thing I can think of is the price, I am not sure about other guys, but my phone bill can kill me by the end of the month. It would always become such a pain in the neck when I am short of money.

嗯，我第一个想到的就是辐射。有人告诉我说，当你的手机开着的时候，它会放射出一种对人们身体没有好处的辐射。另一个我能想到的不利的方面是价钱，我并不清楚其他人怎么样，但是我的电话费单在月底的时候都要把我折磨死了。当我缺钱的时候，手机真是个可恶的家伙。

2. What is your first priority when you go shopping?

2. 你购物的时候首要考虑的是什么？

When I shop for electronic appliances, I pay much attention to their quality because I don't want to pay high prices for low-quality appliances. But when I shop for clothes, I think color is the most important thing. A color that matches

the color of your skin will certainly brighten your face and make you look prettier.

当我买电器的时候，我很注重质量，因为我不想花很多的钱买质量差的电器。买衣服的时候，我认为颜色是最重要的。一个和你的肤色相配的颜色肯定会使你的脸更明亮，让你看起来更漂亮。

3. When do you usually go shopping?

3. 你通常什么时候去购物？

Generally speaking, I usually go shopping during the weekend. As I have to hit the books from Monday to Friday for five days in a row, there is no way for me to go shopping during the weekdays. But it really depends. It depends on whether there is any special offer or end of the season sale or mid-season sale going on or not. So when it comes to the time when there is any discount in shopping malls, I will be shopping like a mall rat.

一般来说，我通常都在周末去购物。因为我从周一到周五整整五天都要读书，这就意味着我绝不会上课时间去购物的。但这也要看情况，通常取决于是否有特别的邀请或者季末、季中打折。所以当商场有任何折扣活动的时候，我就成了个购物狂了。

4. Do you like going shopping?

4. 你喜欢购物吗？

I am not a big fan of it. Actually, going shopping is the very last thing I want to do! Moreover, I don't have enough money to spend on those fashionable clothes. 噢，我并不是很喜欢。实际上，去购物是我最不想做的事了。此外，我也没有足够的钱花在那些时装上。

5. Do men or women go shopping more?

5. 谁更喜欢 购物，女人还是男人？

Women are definitely the demographic who are more likely to go shopping. It is one of the fields where women have the advantage. They are always popping into big department stores, shopping malls, street stalls and boutiques to shop like a mall rat. Especially when it comes to end-of-season sales or final clearance, they will shop until they drop! But it would turn out to be a totally different picture when it comes to men. Men like to stay at home or wait for their wives in the car when their wives are shopping. Even if it comes to the time they shop, they usually go to the store and grab the thing they need and leave right away.

谈到这个问题，从统计数字来看，女人显然更喜欢逛街。这是女人专属的一个领域。她们总是像购物狂一样地出现在一些百货公司、购物商场、街头店和时尚小店里。尤其是到了季末折扣或者最后清仓的时候，她们会一直采购到手都拿不下为止！但对于男人来说，就完全是另一种情形。当妻子在逛街的时候，男人通常都趋向于待在家里或者是在小车上等着妻子。即便是逛街，也通常都会走进商场买了他们需要的物品后就马上离开了。

Topic 11: 写作

1. Do you love writing?

1. 你喜欢写作吗？

Honestly speaking, writing is the very last thing I want to do! The only class I use to skip in my primary school was writing. And I can always successfully doze off

when I am in writing lecture.

坦白地说，写作是我最不喜欢的事情。从小学开始，我唯一逃的课程就是写作。

并且在写作课上我总是打瞌睡。

2. Which way do you prefer, writing in English or Chinese?

2. 你更喜欢用英文还是中文写作呢？

Well, I prefer to write in English. I think it is a good way to practice my writing.

You know, I am going abroad pretty soon. So the more I practice writing in

English, the better my writing skill will become. Maybe sometimes I have no idea

how to express my idea in a real English way.

嗯，我更喜欢用英文写作。我认为用英文写作是一种锻炼我写作的好方法。您知

道，我很快就要出国了。因此，英文写作练习得越多，英文写作技能也就会越好。

或许，有时我不知道如何用英文把我真正的意思表达出来。

3. What's the difficulty about writing in Chinese?

3. 用中文写作的困难是什么呢？

Although I am a Chinese, there are still some difficulties when it comes to writing

in Chinese. For example, how to express ideas in a beautiful way. Anyway, writing

is much more difficult than speaking? So that is why there are only very, very few

people who can really write well!

虽然我是中国人，但在中文写作中仍有一些困难。比如，如何用一种好的方式表

达观点。不管怎样，写作也要比口语更难些。这就是为什么只有很少数的人能真

正写出好文章。

4. What's difficult about writing in English?

4. 你用英文写作的困难是什么呢？

The biggest obstacle is the English speakers think pretty differently to Chinese, which means sometimes I have ideas what I am going to write, but I have no clue on how to get my idea expressed in English. You know, sometimes it looks cool and sounds all right, but it just isn't English! Real English speakers don't say it! It is nothing more than a kind of Chinese English.

最大的障碍就是中国人的思维方式与英国人非常不同。也就是说，有时我想写些观点，但是不知道用英文应该如何表达。您知道，有时听起来很时尚还不错，但是，那并不是英文。真正的英国人并不那么说。那只不过是一种中国式英语。

Topic 12: 电子邮件

1. Do you often write E-mails? Why? What is the worst thing about writing an E-mail?

1. 你总写电子邮件吗？为什么？写电子邮件不好的地方在哪里呢？

I do. E-mail is a cool way to communicate with people who live far away. And making phone calls is certainly big bonus for everybody. But seriously, there are still some time when people don't feel like talking on the phone! Apparently, E-mail can really sort this out! But I am not saying it is all good! As to the bad things, the thing I can think about is writing E-mail will degrade my hand-writing. And now my handwriting is all Greek to people and maybe only Martians can read it!

是的，我写电子邮件。电子邮件是一种与远方朋友沟通交流非常好的方式。当然，

打电话对于每一个人来说，也是一种很好的方式。但是，有时仍有一些时候，人们不愿意用电话交谈。很显然，电子邮件可以解决这个问题。但我不认为它各方面都好。至于不好的方面，我认为写电子邮件会降低我的书法水平。现在，我的字迹对别人来说像希腊语，或许只有火星人能读懂它。

2. How do you like to communicate, by E-mail or telephone?

2. 电子邮件和电话相比，你更喜欢哪种沟通方式？

Well, for me, I would like to use the phone. You know, E-mail definitely can not hold a candle to phone, which is much faster, and more convenient. Maybe the only thing less impressive is it costs a lot, especially when you are making too many long-distance and overseas phone calls.

嗯，对我来说，我更喜欢电话交流。您也知道，电子邮件不能和电话比。电话更快捷，更方便。或许唯一让人不满意的就是它的费用花费较多。特别是你在打过多长途电话和越洋电话的时候。

Topic 13: 阅读

I. Do you like reading? Why or why not?

1. 你喜欢阅读吗？为什么喜欢或不喜欢？

Yes, of course I do. I can't imagine a life without reading, for reading is the best way to learn. Reading can enrich your knowledge and broaden your horizon. I love reading because reading is a happy journey of soul searching. It teaches me tolerance and humanity. It helps me run away from my bitterness and pull myself together again.

是的，我当然喜欢。我不能想象生活中没有阅读是什么样子，阅读是学习的最好方法。阅读可以丰富你的知识，开阔你的眼界。我喜欢阅读因为阅读是一个深思的快乐旅行。它教会我宽容以及人道，帮助我远离痛苦并且让我重新振奋。

2. What do you like reading?

2. 你喜欢读什么书？

I like reading books or magazines about travel because I'm fond of traveling. Through reading, I learn about different kinds of place and cultures. I can also get much information on economical and exciting trips so that I can make my own travel plans.

我喜欢阅读关于旅游的书籍或杂志因为我喜欢旅游。通过阅读，我学习到更多不同的地方和文化。我同样可以获取很多经济的且让人兴奋的旅行信息，这样我就可以做出我自己的旅行计划。

3. Do you like reading the newspaper?

3. 你喜欢读报纸吗？

Well, it depends on what I am reading. Too much academic reading can kill me! But anything about fashion would definitely cheer me up! And I most love time when I am reading entertainment newspapers, listening to some light music while enjoying my lovely brunch on a lazy Saturday morning in the lounge.

嗯，那取决于读什么内容。太多的学术阅读能杀死我。但是有关时尚的读物能让我振作起来。我最喜欢的时光，就是在懒散的周六早晨，坐在沙发上享受可口的早午餐，阅读娱乐性报纸，聆听轻音乐。

4. Which kind would you prefer, local newspapers or international newspapers?

Why?

4. 你更喜欢当地报纸还是国际性报纸?为什么?

Well, I have to say it is very hard to tell which one is better! Because they are both beautiful and just as the saying goes "Everything exists for a reason", local newspaper can keep us informed about what is going on around us. But I am not saying international newspapers are not cool. International newspapers can always let us know what is going on around the world!

嗯，我认为很难说哪一种更好。因为我认为它们都很优美，就像俗语说的“存在必有原因”。当地报纸可以让我们了解周围发生了什么事情。当然，这并不是说国际报纸不好。国际报纸可以告诉我们世界上发生了什么事情。

5. Do you think newspapers will be replaced someday?

5. 你认为报纸有一天将被取代吗?

Well, as the saying goes "No one knows what is going to happen in the next second! " Let alone someday ? So I think it is too early to talk about this now. Maybe it will now. Maybe it will not. Because so far, no other media channel can hold a candle to newspapers ,which are convenient and cheap.

嗯，俗话说“没人知道下一秒将会发生什么”。让每一天都独一无二。因此，我认为现在谈这个问题过早。或许报纸现在将被取代，或许它不会。因为到目前为止，没有其他媒体渠道比报纸更好，像报纸那样更方便，便宜等。

6. Do you like reading magazines? Why?

6. 你喜欢读杂志吗?为什么?

I love it! Especially fashion magazines! I am just crazy about all that smashing,

eye-catch-ing fashion stuff. ELLE and Vogue are my favorites. Sometimes, there are some exquisite free gifts attached to them. And I most love the time when I am reading on a super cozy sofa on an open-air balcony, enjoying the lovely sunshine while sipping a cup of cappuccino! Gosh, life is great, huh?

喜欢!特别是时尚杂志。我对那些极好的，引人注意的时尚杂志近乎疯狂。我最喜欢 ELLE 和 Vogue。有时，它们会附赠一些精美的礼物。我最喜欢享受的时光就是，坐在露天阳台超级舒适的沙发上阅读;在愉快的阳光下喝一杯卡布吉诺咖啡。天啊，生命太美妙了，不是么？

Topic 14: 交通

1. What is the most popular transport in China?

1. 中国最为流行的交通方式是什么？

I think that would be bus, which I think is a result of Chinese people, s ever-increasing living standards and ever-growing Chinese economy. You know those days when Chinese were confined to make their way on foot or by bikes are gone forever, here comes the time when we Chinese are offered millions of options: car, bus, subway, train, plane ... but it really depends, depends on which city we are talking about here. If we are talking about big cities like Beijing, Shanghai and Guangzhou, taxi or private car is going to be the most popular transport : but when we are talking about small cities, bicycles might turn out to be the most popular transport.

我想应该是公交车。我认为公交是中国人民不断上升的生活水平和经济不断发展

的自然结果。以前，中国人的交通方式局限于步行和骑自行车，现在为中国人提供成千上万交通方式的时代到来了，小骑车，公交车，地铁，火车，私家车，飞机等。但取决于谈论的是哪个城市。如果我们谈论的是像北京、上海、广州这样的大城市，出租车或私家车或许是最为流行的交通方式。但一些小的城市，自行车或许成为最为流行的交通方式。

2. What is your favorite transport? Why?

2. 你最喜欢的交通方式是什么？

Generally speaking, my favorite is taxi. Anytime, anywhere, all it takes just one handwave. And you will never be jammed into teeny, tiny compartment with all the other guys like sardines. But it really depends. It depends on where I am going. For example, there is no way for me to make my way from Beijing to London by taxi! It also depends on how much money I have. I can't bear it when the meter running for a long, long time when I am short of money?

总的来说，我最喜欢的交通方式之一是出租车。任何时间，任何地点，所有我们需要做的就是招手。并且你不会因和其他人像沙丁鱼一样被挤在狭小的车间而烦恼。但还要取决于去哪里。比如，我不可能打车从北京到伦敦。也取决于我有多少钱。很难想象当我缺钱时，能够忍受汽车里程数长时间的上升。

3. What is the bad aspect in terms of transport in China?

3. 谈论一些中国交通任何让人不满意的方面？

Talking about this question, there are many unimpressive things. The first thing I can think of is traffic jams. You know, the traffic jam is absolutely bloody murder everywhere, especially when it comes to rush hour. Another bad thing that pops

into my head is the air pollution that all the vehicles cause. Can you imagine how horrible it would be if someone was uncomfortably sitting in a taxi which was stuck among lots of vehicles which were busily leaking smog? One more thing jumps into my mind is the crowding of some public vehicles. I am sure no one wants to be pushed into the teeny,tiny compartments with all the people jammed like sardines.

说到这个问题，有许多让人不满意的地方。最让人印象深刻的是交通堵塞问题。您知道，无处不在的交通堵塞，简直就是血腥杀手，特别是在交通高峰时间。另一个呈现在我脑海中的就是由所有汽车引起的空气污染问题。你能想象当人们不舒服的坐在被拥挤在各种排放废气的车辆中的出租车里是多么可怕的事情吗？更多的呈现在我脑海里的是公交车里的拥挤现象。我想没有人愿意和其他人一起被挤在拥挤狭小的车厢里，挤得像沙丁鱼一样。

4. When are vehicles most crowded?

4. 汽车什么时间最拥堵？

That would definitely be the rush hour. Say, from seven to nine in the morning and from five to seven in the evening. Traffic jams are bloody murder everywhere when it comes to rush hour: It can be seen by millions of vehicles being screwed up everywhere.

那肯定在交通高峰时间。比如早晨 7 点到 9 点，晚上 5 点到 7 点。在交通高峰时间，交通堵塞绝对是到处的血腥杀手。成千上万的汽车被挤得到处都是。

5. What are the advantages and disadvantages of the bus?

5. 公交车的利弊是什么？

The bus is punctual, cheap, and convenient. But it is not punctual any more when it comes to rush hour. Traffic jam caused by millions of cars in rush hour can totally ruin its reputation?

公交车很准时，便宜而且便捷。但是到了交通高峰期时就不再那么便捷了。成千上万的小汽车引起的交通堵塞完全破坏了公交车守时的名誉。

6. How would you improve traffic in cities?

6. 你将如何改善城市中的交通问题？

Speaking of traffic,you know,as the saying goes: "Roma wasn't built in a day." I think this is not like something can be improved in couple of days and by couple of guys. So I think it is the high time that both government and individuals did something. From government perspective, a series of systematic and reasonable regulations and rules should be implemented based on the currently unsatisfactory situation. As far as individuals are concerned, they should strictly obey all the relevant regulations and rules so that I can set a very good example to other citizens.

说到交通，就像俗话说的“罗马不是一天建成的”。我想这不是几天或者几个人可以解决的问题。到了政府和个人应该做点什么事的时候了。从政府角度，针对目前不尽人意的交通状况，应当执行一系列系统合理的规章制度。就我个人而言，我会严格遵守相关的法规制度，为其他市民做榜样。

7. How could you improve traffic in the cities?

7. 你将如何改善城市中的交通状况？

Well,I think as the concrete solutions,although it might sound like a world that is

too alien to me, maybe we should consult municipal government officers about how to get it done effectively and efficiently! And I am afraid this is not really my field.

我想，就目前的现实状况，由于我属于这个领域的局外人，或许可以咨询市政官员如何有效、迅速的解决。我想这确实不是我所涉及领域的问题。

Topic 15: 照相

1. Do you like taking photos? Why or why not?

你喜欢照相吗?为什么喜欢或不喜欢?

Yes, I like taking photos especially when I go traveling. The photos are a kind of memory, you know,when you are back home. And through photos you can also share your travel experience with your friends and family. I also consider taking photos as a form of creative art. The same mountain may appear in different angles by different people?

是的，我喜欢照相特别是出去旅游的时候。你知道，在你回家以后，照片是一种记忆。而且通过照片你可以与家人和朋友分享你的旅游经历。我也把照相看作是一种创造性的艺术。同样一座山可以被不同人拍出不同的角度。

2. When do you take photos?

2. 你什么时候照相?

I take photos at family reunions and get-togethers with former classmates or

friends. I also take my camera with me when I go traveling or go on spring outings. Recently I bought a camera phone, and with it I can take photos whenever I want and wherever I am.

我在家庭团聚以及与老同学或朋友聚会的时候照相。当我去旅行或春游的时候我也会带着照相机。最近我买了一台照相手机，有了它我就可以随时随地照相了。

3. Which kind of pictures do you like?

3. 你喜欢拍什么类型的相片？

I would definitely go for fine art ones. I am crazy about those awesome fine art pictures. And there are millions of fine arts studios everywhere in town. And millions of girls are dying to look like a cover girl in magazine?

我非常喜欢艺术照。我对那些美丽的艺术照近乎疯狂。在这个市镇里有成千上万的照相馆，到处都可以看到。成千上万的女孩看起来都像封面上的人物。

4. Do Chinese people like taking pictures?

4. 中国人喜欢照相吗？

Well, since taking pictures is one of the best ways to keep good memories, I think most Chinese love it. But it really depends. It depends on sex. Say, women are more likely to be crazy about having their pictures taken. However, it might be the last thing that men want to do! They love taking pictures of others, though.

由于照相是保留美好回忆最好的方式之一，所以我认为多数的中国人都喜欢照相。但这也取决于性别。比如，女性对照相更加疯狂。然而，对于男性来说，照相或许是他们最不喜欢的事情。但他们喜欢为别人照相。

5. What is the importance of taking pictures?

5. 拍照的重要性是什么？

Taking pictures is a good way to keep memories. Those sweet memories will immediately jump into people's mind every time when you look at your photos. I bet this is one of reasons why lots of people have digital cameras, even wider recorders. And sometimes, people can even get a huge sense of satisfaction and achievement when they show their millions of nice photos to their friends?

拍照是保持回忆的一种很好的方式。当人们欣赏他们的相片时，那些美好的回忆会立刻浮现在人们的头脑当中。我打赌，这是为什么人们喜欢数码相机，甚至更大容量卡的原因之一。有时，当人们将成千上万的美丽图片显示给他们的朋友的时候，也能从中获得很大的满足和成就感。

Topic 16: 体育锻炼

1. Do you usually go to gyms? Why?

1. 你经常去健身房吗，为什么？

Yes, I do. I go to the gym every few days. You know, health is becoming more and more important. It is very hard to imagine how someone can survive without health! You know, health has already become the priority number one when it comes to almost everything and we are certainly going nowhere without it! Health has already become one of the very few things that can't be measured in terms of money. And certainly, going to gyms frequently is obviously a good way of keeping healthy.

嗯，是的。我每隔几天都会去的。大家都知道，身体健康已经变得越来越重要了。

真的十分难以想象没有健康大家要怎么生存下去。无论谈及任何事情，健康已经成为人们首要考虑的因素，而且没有健康我们哪也去不了！健康已经成为不能用金钱衡量的为数不多的东西之一了。当然，经常去健身房显然是一种保持健康的合适方式。

2. Do Chinese do lots of exercise?

2. 中国人经常锻炼吗？

Yes, generally speaking, we Chinese do lots of exercise. Fitness, for the last several decades, had been used as a buzzword. Going to the gym to work out is frequently taken as one of the top New Year's resolutions, especially to young people. But it really depends. Depends on age and sex. Can you imagine a ninety-year-old lady going to the gym to build up nice figure and can you imagine a three-year-old little kid going to the gym to get in shape?

是的，一般来说，我们中国人经常锻炼。健康，在最近几十年中，已经被当作一个流行话语在用了。尤其是对一些年轻人来说，去健身房锻炼已经普遍成为度过新年的首要方式了。但是，这也要看情况。这主要取决于年龄和性别。你怎么能想象一个九十岁的老妇人去健身房塑造一个良好的形体，以及一个三岁小孩去健身房去塑形呢？

3. What do you think of losing weight?

3. 你怎么看减肥的？

This is being talked about like a buzzword among people, especially to those ladies who are dying to become more eye-catching and attention-grabbing. I think it is a good thing, but don't ever overdo it. It is like there is always a fine line,

don't ever cross it. And I suppose being on crash diet of only tap water would be the very last thing that everybody wants to do and it will totally ruin your health.

这在很多人中间已经成了一个时髦的词了，尤其是对那些如饥似渴地想变得吸引人眼球的女士来说。我认为这挺好的，但是不要做得太过火了。就像有一条适度的线，千万不要越过它了。因为我觉得疯狂的只喝自来水的减肥，是每个人都不愿意做的，这样也会毁了你的健康的。

4. Who would like to lose weight more, women or men? Why?

4. 你认为谁更想减肥，女人还是男人呢，为什么？

In China, women are definitely the demographic who are more likely to lose weight. It is one of the things that women like to do. They are always popping into beauty parlors, consulting, plastic surgeries and losing weight, like liposuction, massage and acupuncture: they might as well rush into a pharmacy to grab the weight-reducing medicine. Even if they go to sports center to exercise, they are more likely to be doing aerobics, yoga to burn fat: but it would turn out to become totally another picture when it comes to men. They don't think losing weight would ever become an issue for them.

在中国，从统计数字上来看，女人显然更想要减肥。这是一个女人专属的领域。她们总是爆炸性地出现在一些漂亮的大厅里，咨询、做外科整形手术、减肥如抽脂术，按摩和针灸；她们也有跑去药房去买一些减肥药品。甚至如果她们去健身房的话，她们更可能做一些有氧运动、瑜伽，来燃烧脂肪；但是这要对于男人的话，就是一种完全不同的想法了。他们认为减肥可能永远不会成为一件他们的事情。

5. Are there any good ways to lose weight?

5. 有没有合适的减肥方式？

Mentioning how to lose weight, I think the first and most effective way that jumps into my mind is doing a regular exercise. Another good way I can think of is being on diet, but definitely not crash diet. It would be really pathetic for someone to be on crash diet of only tap water just for losing weight! And eating weight-lost medicine would be even more miserable thing to do!

提到减肥，首先出现在我脑海中也是最有效的减肥方式就是经常性的锻炼。另外一种就是节制饮食，但是显然不是完全地节食。一个只靠喝白开水来减肥的人真是够可怜的！吃减肥药，那更是一件痛苦的事情了！

6. Do you like going to the gym to get in shape?

6. 你喜欢去健身房塑造形体吗？

Yes, I am crazy about it. You know, I can always get totally relaxed and refreshed every time I go to the gym to work out. And going to the gym can help me to shape my body. And the most important thing is going to the gym regularly for exercise to keep me healthy.

恩，我相当喜欢。当我每次去健身房锻炼的时候，我通常都变得十分放松并且精神振作起来。去健身房当然可以有助于我形成良好的身形。最重要的是，定期去健身房可以使我变得健康。

Topic 17: 污染

1. Would you like to live in a nice flat without air-conditioning?

1. 你喜欢住在一个没有空调的漂亮的公寓楼吗？

Yes, of course. Air-conditioning can surely bring us comfortable temperature but I'd rather open the windows and let fresh air in, which can control bacteria in the room to the lowest level. Research shows that staying in a room with air-conditioning for a long time will do harm to people's health. Air-conditioning syndrome has now become a new disease disturbing modern people.

是的，当然。空调确实可以带给我们舒适的温度，但是我更愿意开窗通风，这样可以使室内的细菌降到最少。研究显示呆在空调房间很长时间会对人的健康有害。空调综合征现在成为困扰现代人的一个新的疾病。

2. Does traffic cause pollution? How should we solve the pollution?

2. 交通会导致污染吗？如何解决这种污染？

China's automobile industry is currently at the technological levels of the 1960s, characterized by high energy consumption. An inefficient replacement cycle and the long period of use of automobiles have caused pollution at very high levels. So we should effectively enforce emission standards, invest more funds to update testing facilities and control the numbers of private cars.

中国的汽车工业目前处于 20 世纪 60 年代的技术水平，以高能耗为特征。一个低效率的更换周期以及汽车的长期使用导致污染水平很高。因此我们应当有效地执行排放标准，投入更多资金更新检验设备以及控制私家车的数量。

3. What does your country do to solve pollution?

3. 你们国家如何解决污染问题？

China has already signed and ratified the United Nations Framework Convention

on Climate Change (UNFCCC) and the amended Montreal Protocol on Ozone Depleting Substances. China is now in the process of formulating national action programmes for implementing this international convention and protocol. China has promulgated the law of the People's Republic of China for the Prevention of Atmospheric Pollution.

中国已经签署并且批准了《联合国气候变化框架公约》(UNFCCC)以及修正了《关于消耗臭氧层物质的蒙特利尔议定书》。中国目前正处在制定履行这个国际公约及议定书的行动计划过程中。中国已经颁布了《中华人民共和国大气污染防治法》。

4. What do you think is the best way to solve pollution?

4. 你认为解决污染问题最好的方法是什么？

Developing strategies and measures for protecting the atmosphere involves the legislative, planning, scientific research and educational sectors. It requires concerted cooperation between sectors. Pollution is not only a serious problem facing a certain country but also a serious problem facing human beings as a whole.

研究保护大气层的对策和措施，包含立法、规划、科学研究以及教育部门。这需要部门之间协调一致的合作，污染不仅是某个特定国家面临的一个严重问题，也是整个人类面临的一个严重的问题。

Topic 18: 音乐

1. Do you like music? What sort of music do you like best and why?

1. 你喜欢音乐吗？你最喜欢哪种音乐？为什么？

Yes, I like music, especially soothing music that makes me feel relaxed after a day's work. I'm fond of light music in which the rhythm and sound of nature can be heard: the rhythmic drumming in the surf, the measured meter of rain and the melodic tunes of singing birds. I like that, really.

2. When do you listen to music?

2. 你什么时候听音乐？

I always listen to music while I'm doing housework because I hate doing chores, but music is fun. It makes me happy. Actually music is a part of my life. 3. Should children learn to play musical instruments? Why or why not?

3. 小孩应该学习演奏乐器吗？为什么是或不是？

Many parents believe playing musical instruments is the only way to cultivate an interest in music, but I don't think so. To those children who don't like playing musical instruments, they also improve their reading, spelling and math skills. Furthermore, there are a simply joy in experimenting with an instrument, singing

or simply enjoying is just enough.

很多家长以为演奏乐器是培养对音乐的兴趣的唯一途径，但我不这么认为。那些不喜欢演奏乐器的孩子们，他们同样提高了他们的阅读、拼写以及数学技巧。此外，尝试演奏乐器、唱歌仅是一种乐趣，或者只是享受就足够了。

Topic 18: 音乐(二)

1. What sort of music do you like the most and why?

是的。如今流行歌曲，传统古典音乐，以及进口的音乐都很受大众的欢迎。除了CD，录音带，电视节目，您还可以通过一些广播电台从早到晚不间断地欣赏它们所提供的好音乐。

3. Is it necessary to teach music courses in high schools?

3. 是否有必要在高中设立音乐课程？

I believe so. First of all, learning music can bring something fresh to academic study, which can make up for the lack of delight on campus. Secondly, music courses will not only tell the students how to sing or play instruments but also how to appreciate music.

我认为是的。首先，通过音乐的学习能够给文化学习带来更大的新鲜感，可以令校园生活生动有趣。其次，音乐课程不仅教会学生如何唱歌或使用乐器，同时也教会学生如何欣赏音乐。

4. What are the differences between Chinese music and western music?

4. 中国音乐和西方音乐之间有什么区别呢？

There is little difference in melody between Chinese music and western music concerning present pop music. However, due to the differences between the two cultures, the difference in lyrics is much more obvious. Chinese ones are more conservative, while the western ones are more straightforward.

在当今的流行音乐中，中国音乐和西洋音乐的旋律区别很小。然而，由于两国间的文化的不同，歌词的差别更为明显。中国的较为保守，而西方的则更为直截了当。

5. What are the benefits if children can play a musical instrument?

5. 如果孩子会演奏一门乐器有什么好处呢？

A child who can play a musical instrument will be popular at school. I always admire those who can play the piano or the violin on stage when the school

holds activities or parties.

会演奏一门乐器的孩子通常在学校是很受欢迎的。我总是很羡慕那些在学校活动聚会中可以登台演奏钢琴或小提琴的同学。

6. Why is it easier for children to learn a musical instrument than adults?

The life style is also various. The night life is more colorful in the south. People will go shopping or chat until 10 o'clock or even later. The people in the north always go back home before 8 o'clock.

北方的房子是用砖砌的，而在南方建设的材料还包括竹，黏土或干草。南方经常下雨，所以在屋顶上，通常会设计成一个斜坡。生活方式也不同，在南方夜间生活更加丰富多彩，人们通常外出购物或聊天直到10点甚至更晚。而北方的人们大多在晚上8点前就回家了。

城市的房屋一般没有大的花园，因为地价非常昂贵。此外，自然环境方面城市也不如乡村地区的好。

5. How can you improve house?

5. 您如何能改善房子？

I think houses should be built smaller. Nuclear families are popular in China, and houses shouldn't be too large. Otherwise, they make the family bond loose. Some people say today's families are not as close as they used to be.

我认为房子应该建造得小一些。核心家庭方式在中国很流行，所以房屋不应过大。否则，他们会使家庭成员之间的联系变得疏远。正如一些人说，当今家庭中的关系已经没有过去那么亲密了。

套房。大部分的中国居民不会住在独立的房屋里。

I guess not. Even if people have a lot of money,the land is limited. We should try to accommodate more people with limited land. Flats are the best choice?

9. What kind of house do Chinese people live in now? How should the government improve people's housing conditions?

9. 中国人现在住在哪种房子里面？政府应当如何改善人民的住房条件？

As science and technology grows,the houses Chinese people live in have changed quite a lot. More than twenty years ago,most Chinese people lived in single-story houses with small yards. Nowadays, they live in well-equipped apartments in tall buildings with air-conditioning and central heating. A few rich people have villas in the suburb. They choose to live in two-story houses with

enough rooms to share with their families. People live in the countryside have more living space, and they usually have large yards and gardens. But we can see there are also some people who still live in shabby one-story house since, you know, they can't afford to buy the flat big enough to house the whole family; however this is not the main stream, and the government is making every effort to improve people's housing conditions. In my opinion, the government should offer sufficient funds to build more economical house.

随着科技发展，中国人住的房子发生了很大改变。二十多年前，大多数中国人住在有小院子的平房里面。现如今，他们住在设备很好的大楼公寓房间，里面有空调及中央暖气系统。少数富人在郊区拥有别墅。他们选择住在两层的房子里以便有足够的房间与他们的家人住在一起。农村居民有更多的生活空间，而且他们通常有大院子和花园。但是我们还是能看到有些人仍住在破旧的小平房里面，你知道，因为他们买不起住下一整家人的公寓房；然而这不是主流，而且政府正在尽一切努力来改善人民的住房条件。在我看来，政府应当提供足够的资金建造更多经济的房子。

10. What kind of houses do Chinese people like to live in? What do you think of this kind of house?

10. 中国人喜欢住在哪种房子里？你认为这种房子怎么样？

A couple with one child usually like to live in a large apartment with three rooms, two of which can be used as bedrooms, and another one can be used as a study. What's more, in such an apartment, there should be a separate bathroom, a kitchen and a parlor. Besides, people would like to choose a living place near both

their own working unit and a good school in order that their children can enjoy high-quality education. I think it's good and comfortable to live in large apartments. However, if we live in this kind of house, we'll spend more money and energy on it, since we'll pay more for the purchase and maintenance, and it'll also take us more time to do the cleaning.

一对夫妻带一个孩子通常喜欢住在一个有三居室的大公寓房间里，其中两间可以作为卧室，另外一间则被当作书房。此外，在这种公寓里，应有一个独立的浴室、厨房和客厅。而且，人们想要选择住的地方既要临近他们的工作单位也要有一所好学校以便孩子能得到高质量的教育。我认为住在大的公寓房里很舒适。然而，如果我们住在这种房子里，我们得花更多的钱和精力在上面，我们要花更多的钱交租金以及保养，而且打扫也要占很多的时间。

called "the Hong Kong of the North" because Dalian is not only delightful in climate but also prosperous in economy, and the most important thing of all is that it is the cleanest city I have ever visited in China?

我去过几个城市，大的小的、喧闹的安静的，在这些城市中，大连留给我很好的印象。大连位于辽宁省南部，被称为“北方的香港。”因为大连不仅有宜人的气候还有繁荣的经济，而且最重要的是它是我去过的中国城市中最清洁的。

10. What are the differences between big cities and small towns in China?

10. 在中国大城市和小城镇有什么不同？

On the one hand, there're lots of skyscrapers in big cities. Life there is more convenient, and people can enjoy various forms of entertainment. Education is better in big cities because there are plenty of excellent teachers and advanced teaching equipments, which is beneficial to the future of children. But just as the saying goes, "Every advantage has its disadvantage"; big cities have their own disadvantages. For example, big cities are crowded and noisy, and living space is limited. On the other hand, small towns have their own advantages. For example, life is quieter, and interpersonal relations are easier to deal with. So they are more suitable for old people to live in?

在一方面，大城市有很多的摩天大楼。生活在那里很方便，人们可以在那里享受各式各样的娱乐。大城市的教育更好，因为那里有许多出色的教师以及先进的教学设备，这些对孩子的未来有益。但是就像老话说的那样，“有利必有弊”；大城市也有其缺点。比如，大城市拥挤喧闹，生活空间有限。另一方面来说，小城镇有其优势。比如，生活更安静，而且人际关系更好处理。因此很适合老年人居住。

12. What are the advantages and disadvantages of the countryside?

12. 农村的优势与劣势是什么？

First of all, I'll talk about its advantages. In the countryside, the air is clean, the food is fresh, and houses are usually spacious. People are close to nature. Most of all, country people are simple and kind. However, just as the saying goes, "No garden is without weeds"; living in the countryside has its own disadvantages. For example, rural life is dull and monotonous, transportation is not convenient, and markets aren't so advanced. And the biggest disadvantage lies in education. Children in the countryside don't have access to high-quality education which results in their narrow horizons.

首先，我先说一下优势。在农村，空气清洁，食物新鲜，而且房子通常比较宽敞。人们接近自然。最重要的是，农村人朴实亲切。然而，就像老话说的那样，“没有不长杂草的花园”；生活在农村有其劣势。比如，农村生活单调乏味，交通不便，市场也没有那么先进。最大的劣势是教育。农村的孩子没有接受高质量教育的机会，结果导致他们眼界狭窄。

Topic 44: 餐厅

1. What do you think of fast food in people's life?

1. 你怎么看待人们生活中的快餐？

If you ask me,fast food plays an important role in our life. The pace of life is faster than the past,and fast food can meet this change. The advantage of fast foods is evident. With the acceleration of the pace of life,people have less and less time for eating. Therefore,most of them rely on fast food because they don't have to wait for a long time for the service. Besides, it's easier to carry than traditional Chinese food. However,that junk food is not nutritionally balanced. It's not wise to eat too much. In the long run,it may bring harm to one's health. Therefore,we should avoid eating too much fast food?

如果你问我，我认为快餐在我们的生活中扮演很重要的角色。生活节奏比以前快了许多，它可以满足这种变化。快餐的优势是显而易见的，随着我们生活节奏加速，我们减少了就餐的时间，因此，很多人都选择快餐，因为他们无须为就餐而耗费太多的时间。还有，他们比传统的中餐更容易携带。然而，这种垃圾食品营养不均衡，不宜多吃。从长远角度来看，它会给我们的身体带来伤害，因此应该避免吃太多速食。

2. 你怎么看科学的食品加工？

Scientific processing is important because it can keep us healthy and our food production is greatly increased?

科学加工是很重要的，因为这可以提高我们的保健水平，而且大大提高食品产量

3. What do you think about scientifically produced food?

3. 你怎么看科学生产食品？

Well,I don't know much about this kind of food,but I think it's fairly new and advanced. Nobody knows about the effect of it. I'm very glad to say scientific agriculture has to some extent relieved the burden on our limited farm land of raising such a large population in China because it may have greater output. Government should take some measures to encourage farmers to involve more scientific technology in their farming. On the other hand,it's still up in the air whether the scientific production has the same internal structure and if they contain the same amount of nutrition as well as traditional production.

我不太了解这种食品，但是我觉得这是一种新型的先进食品。没有人了解它的效能。我很高兴地说，科学地发展农业，增加了农业的产出率，这在一定程度上减轻了我们有限的耕地和养活中国众多人口的负担。政府应该采取措施鼓励农民将更多的科技运用到他们的耕作上。另一方面，同样的领域科学产品是否有相同的成分以及是否像传统食品那样含有同等的营养，仍然不得而知。

4. What suggestion do you want to make for it?

4. 你想给它什么建议？

I think this kind of food will be the trend for future food industry. I hope scientists can be very prudent about their experiments. In one way, it's scientists'inevitable responsibility to practice more on this field to raise the output;on the other hand, they should also investigate if it may as well bring side effects, such as nutrition loss and the destruction of land.

我觉得这种食品生产技术将会成为未来食品业的趋势。我希望科学家要以谨慎的态度对待他们的实验。一方面，科学家要对这种技术作进一步的研究和实验，以增加农作物的产量，这是他们不可推卸的责任。另一方面，他们也应该研究一下这种技术可能带来的副作用，比如食物中营养流失和对土地造成破坏。

5. What are the effects of the scientific production of food on the growth of the world's population?

5. 科学生产食品对世界人口增长有什么影响？

This is really a difficult question. I don't think there is a relationship between these two. Maybe the population will grow because the poor people in Africa can get more food and they won't die of starvation. Since our agriculture output may raise since the introduction of scientifically produced food, people may be capable of supporting larger families. Obviously, it will cause population growth. Nevertheless, the resource on our planet are limited, and sooner or later, it will not be able to meet our increasing needs. As a result, this will undoubtedly lead to the reduction of population. However, in the long run, the condition will reach a balanced state, and remain so for a long time in the future.

这的确是一个很难的问题，我不认为这两者有什么关系。也许非洲人口将会增长，因为非洲穷人可以得到更多的食物，使他们不再死于饥饿。由于我们的农业产量可能通过引进科学生产食品技术而增加，人们可能有能力养活更大的家庭。很显然，这将会导致人口增加。然而，我们地球上的资源毕竟是有限的，迟早会有不能满足我们需求的时候。但无论如何，从长远角度来看，这种情况会达到一个平衡的状态，并且在未来长期保持下去。

总的来说，北京的交通还是不错的，有很多的交通路线，这样乘坐公交和地铁就很容易，但是也存在问题，北京的交通拥挤问题一直不是很乐观，我觉得这不仅是私人机动车的增多所造成的而且也是没有很好的规划道路所造成的，更何况管理系统也不是很好，我希望在 2008 年后这样的状况会改善。

Besides, the driver who breaks the law three times or more should have his driving license revoked and take some courses on

driving.

最有效的方法是降低车辆的速度，在我看来，颁布一项法令，汽车超速应被罚一定的金额。我知道在欧洲和美国，司机很注意他们的驾驶速度以防拿到罚单。此外，违法 3 次或更多的司机应当吊销驾照并且接受一些驾驶课程。

And we know that sometimes the brand of his car can show a businessman's social status, which is needed on some occasions in order to obtain a certain contact. However, celebrities buy cars to satisfy not only their travel need but also their hobbies, so some of them may own more than one car. Of course, everything is changing. We can see more and more ordinary people are buying cars or planning to buy cars. The reason why more and more common people tend to own cars is that they want to live a more comfortable life, I think.

众所周知倾向于买车的人中，大多数是商人、体育明星、名人以及高薪的职员。这很容易理解因为他们的高收入使其可以这么做。而且我们知道有时车的品牌可以显示一个商人的社会地位，这在某些场合是需要的，为了获得某些门路。然而，名人们买车不仅为了满足旅行的需要还有他们的爱好，因此他们中某些人拥有不止一辆车。当然，一切都在变化。我们可以看到越来越多的普通人在买车或计划着买车。我认为越来越多的普通人倾向于买属于自己的车，是因为他们想要

On the other hand, cars also have their own disadvantages, of which pollution should deserve our consideration. As it is known, the exhaust gases emitted by cars can seriously contaminate the air and even cause people to die if inhale too much. Moreover, with the number of cars increasing rapidly, the problem of traffic jams is becoming more and more serious. They slow down the speed at which people arrive at their destination. Finally, cars also bring us troubles. For example, we frequently see people anxiously driving their cars looking in vain for a parking space.

一方面，汽车很方便。人们可以随时开车去任何地方，如果坐公交车就不可能了，因为公交车有固定的运行路线以及固定的出发和到达时间。此外，在速度和舒适方面，汽车在短途旅行中是无可匹敌的。而最后，如果发生紧急情况，你可以立即上车然后开往目的地不用等待公交车或出租车，这能节省你的时间有时甚至是生命。另一方面，汽车也同样有自己的劣势，汽车导致的污染应在我们的

1. What do you think are the main changes over the past twenty years in China?

1. 你认为过去 20 年中国主要的变化是什么？

Great changes have taken place in China in the past twenty years because of reform and opening up. In my opinion,the main changes include the improvement of people's living standard and their attitudes toward life. Twenty years ago,Chinese people's living standard was very low. Almost all the daily necessities couldn't meet people's basic needs. Even if people had money,the chances were that there was nowhere for them to buy what they wanted.

Furthermore, family members of three or even four generations lived under one roof, and sometimes parents might share the same room with their married children. Nevertheless, people can buy whatever they like nowadays. Most people live in big houses and some have their personal cars. As for the attitude towards life, in the past, people, men and women, old and young, held that they should save money for their future, so they spent less money on clothes and food let alone traveling. But now, people enjoy traveling with their family members during the holidays. They pay greater attention to the quality of life?

过去 20 年中国因为改革开放而发生了巨大的变化。依我看来，主要的变化包括人民生活水平的提高及他们对生活的态度。20 年前，中国人民的生活水平非常低。几乎所有生活必需品都不能满足人民的基本需求。即使一个人有钱，可能也没有地方能买他们想买的东西。此外，三代甚至四世同堂的家庭，有时父母可能会和他们已婚的子女合住同一房间。然而现如今人们可以买任何想买的东西。大多数人住在大房子里面而一些人有他们的私车。至于对生活的态度，过去的人们，无论男女老幼，都认为应为未来攒钱，因此他们省吃俭用更不用说旅游了。但是现在，人们享受假期里全家去旅游。他们更注重生活品质。

2. What do you think about women's situation in China? What about their jobs?

2. 你认为在中国女性的地位如何？她们的工作如何？

Women's situation in China is getting better and better. Women nowadays have more freedom and rights than they had in the past. Women are free to choose their marriage. After getting married, they continue to work outside home and have their own careers. They're independents, not only spiritually but also

financially. Considering jobs, in most cases, women have the same right to choose their jobs; they don't just stay at home to take care of their children and husbands; they can do whatever men can. Some jobs must be done by women only, and some jobs can be done even better by women. So in a way, women can't be replaced because they make half the sky.

在中国女性的地位越来越高。现如今女性比过去有更多自由和权利。女性可以自由选择她们的婚姻。结婚以后她们继续在外面工作以及有她们自己的事业。她们独立，不仅是精神上的也是经济上的。就工作而言，在大多数情况下，女性有同样的权利选择工作；她们不再只待在家相夫教子；她们可以做任何男性做的事。有些工作只有女性可以完成，而且有的工作女性甚至可以做得更好。因此在某种程度上，女性不可以被取代，因为她们能顶半边天。

3. What are the changes brought by high technology in China?

3. 在中国高科技带来什么改变？

High-level science and technology have brought great changes to Chinese people's work and life as well. Computers are widely used in our daily work. In the past, we used paper and pens to write, but now people use computers instead. Furthermore, through a video camera attached to the computer, we can see person far away while talking to him or her on the phone, which was impossible in the past. With GPRS, we can find whatever vehicles we are looking for, which is very helpful in case of emergency. Moreover, thanks to the application of high technology in medicine, people live much longer than before, and some diseases which were incurable are under control now. So it is

quite obvious that people benefit a lot from the improvement brought about by high technology.

高科技给中国人民的工作及生活带来巨大的变化。计算机在我们日常工作中广泛应用。在过去，我们用纸笔写东西，但是现在人们以计算机替代。此外，通过装在计算机上面的摄影机，我们可以在与他或她对话的同时看到遥远的人，这在过去是不可能的。有了 GPRS，我们可以找到任何我们要找的交通工具，这在发生紧急情况的时候非常有帮助。而且由于高科技在医药领域的应用，人们比过去更长寿，而且一些过去无法治愈的疾病现在可以控制了。因此十分明显，人们在高科技带来的改变中受益匪浅。

4. What are the major social changes in China?

4. 中国主要的社会变化是什么？

The major social changes in China,in my opinion,lie in the following aspects. In politics, today's people enjoy democracy to a greater extent; in economy, people are more independent and therefore richer; in culture,people have more opportunities to enjoy all kinds of entertainment; in education, people's educational level has been raised.

5. What are the changes in family structure?

5. 家庭结构有什么变化？

Firstly,the family size is becoming smaller than before. Twenty years ago,there

were at least four people in one family. It was common that some of the families were composed of seven or eight people. But because of the family policy, now it's popular for one family to have three people: one couple and one child. Secondly, labor division in the family has changed. Bread-winners no longer refer only to men, and in some families it is the mother who supports the whole family, while the father acts as Mr. Mom. In the meantime, the kitchen is not the place only for women.

第一，家庭规模比以前变小了。20 年前一个家庭至少有 4 个人，一些由 7 个或 8 个人组成的家庭很普遍，但是因为家庭政策，现在很普遍的是 3 口之家，一对夫妇一个孩子。第二，家庭劳动分工改变了。养家糊口的人不再只是男人，而且在一些家庭是由妈妈来抚养整个家庭，而男人则扮演妈妈先生。同时，厨房也不只是女人们的领地。

6. Do you think that everything is changing fast these years? What are the changes around you?

6. 你认为这些年一切事物都在快速改变吗？你周围的变化是什么？

Yes, I think the changes happening in our society are so fast that you can't believe your eyes. Some people exclaim that they are unable to keep up with the rapid development. If you leave a familiar place for a period of time, say, half a year, the chances are that you will get lost when you come back. You'll always find something new. The people, the buildings and the whole environment, everything is changing around you.

是的，我认为我们的社会在发生变化，而且变化如此之快以至你都不敢相信自己

的眼睛。一些人叫喊着他们不能跟上快速的发展。如果你离开一个熟悉的地方一段时间，假定是半年，可能你回来的时候将会迷路。你总能发现一些新事物。人们、建筑以及整个环境，一切你身边的东西都在变化。
